

CHERQUI AHMED AMINE

AI & DATA ENGINEERING STUDENT | BUSINESS INTELLIGENCE | DATA ANALYTICS

PROFILE

Engineering student specializing in Artificial Intelligence, Business Intelligence, and Data Analytics. Passionate about designing AI-powered and data-driven solutions that transform complex data into actionable business insights while continuously expanding my expertise in Data Engineering and Machine Learning.

ACADEMIC BACKGROUND

Université Claude Bernard Lyon 1

- Master MIAE – Business Intelligence 2026-Present

Université Côte d'Azur – High School

- Double Diploma – Master in Artificial Intelligence (MIAE) 2025-2026

Ecole Marocaine des Sciences d'Ingénierie(EMSI)

- Engineering Cycle in Computer Science and Networks 2023-2026
- Preparatory Classes 2021-2023

Bourgogne School Group (GSB) – High School

- Baccalaureate – Physics and Chemistry Option 2020-2021

PROFESSIONAL EXPERIENCE

AI & Business Intelligence Developer_Aurora

february 2026 - june 2026

- Designed and developed an **AI-powered esports analytics** platform combining performance analysis, interactive dashboards, and personalized recommendations for Valorant players.
- Integrated Business Intelligence dashboards, RAG, and machine learning to transform gameplay data into actionable insights.

AI & Data Application Developer_DevAktus

july 2025 - august 2025

- Developed a multimodal AI content moderation platform capable of moderating text, images, videos, audio, and copyright using advanced **AI models**.
- Designed AI-powered REST APIs with **FastAPI**, developed the frontend using **React**, and integrated multiple **AI models** for intelligent content analysis and automated moderation.

ACADEMIC PROJECTS

Intelligent Document Processing Platform

february 2026 - july 2026

- Developed a document processing platform combining **OCR**, **NLP**, and **validation** to automate banking form extraction.
- Designed REST APIs and automated workflows using Python, FastAPI, and OCR technologies.

AI Assistant

May 2024 - June 2024

Developed an AI-powered assistant for dataset analysis and automated data visualization generation using Python, Flask, and React.

Power BI Dashboard

july 2024

Developed interactive Business Intelligence dashboards using Power BI for KPI monitoring and data analysis.

Customer Churn Prediction

Mars 2025 - April 2025

Developed a predictive analytics model for customer churn using machine learning techniques and customer behavior data.

CERTIFICATIONS

Extract, Transform and Load Data in Power BI

Microsoft

Data Modeling with Power BI

Microsoft

Introduction to Containers with Docker, Kubernetes & OpenShift

IBM

Programming for Everybody

University of Michigan

CONTACT INFORMATION

+212618824792

cherqui2003@gmail.com

Maroc - Casablanca - Bourgogne

TECHNICAL SKILLS

- Programming : Python, SQL, Java, C#, JavaScript
- Business Intelligence & Data : Power BI, Tableau, Excel, Power Pivot
- Databases : MySQL, SQL Server, PostgreSQL, SQLite
- Frameworks : FastAPI ,Flask ,React ,Spring Boot

SOFT SKILLS

- Perseverance in projects
- Adaptability
- Following instructions
- Attentive / Good listener
- Active listening

LANGUAGE SKILLS

- Arabic – Native
- French – Intermediate
- English – Intermediate

OFFICE SKILLS

- Powerpoint
- Excel
- Word
- Canva

INTERESTS

- Reading
- Chess
- Sports (Fitness / Weight Training)
